Project overview

Goal, scope, benefits

Erasmus+

Project No. 2020-1-PL01-KA202-082273 "Innovative Multimedia Platform for the Presentation of Professional Qualifications" is financed under the Erasmus+ Program

Aim of the project

show vet

- The aim of the project is to design and develop a Innovative Multimedia Platform for the Presentation of Professional Qualifications and to apply the platform in vocational education and training in the field of agricultural sciences in the period of 24 months. Using innovative solutions applied on the platform, we will present in a novel way selected professional qualifications, taking into account their diversity and the necessary methods of teaching and verification of knowledge during educational work.
- The introduction of new methods and tools for vocational education will enable practitioners, instructors and students to cooperate in practice, in practice more effective and practical than conventional, and more expressive and efficient than the traditional application of technology in teaching.

Erasmus+

Project No. 2020-1-PL01-KA202-082273 "Innovative Multimedia Platform for the Presentation of Professional Qualifications" is financed under the Erasmus+ Program

- The international nature of the project (PL, GR, LT, SK)
- Strategic Partnership (NGO, IT, CONSULTING, TRAINING)
- wide range of issues:
  EQF, NQS, VET, JEUS, GIS, GPS, INSPIRE.

Erasmus+

Project No. 2020-1-PL01-KA202-082273 "Innovative Multimedia Platform for the Presentation of Professional Qualifications" is financed under the Erasmus+ Program

Current state of work

show vet

- Implementing qualifications into Platform
- translation and proof reading of IOs content
- multiplier events in Greece and final in Poland
- finalizing project, preparing final report.

Erasmus+

Project No. 2020-1-PL01-KA202-082273 "Innovative Multimedia Platform for the Presentation of Professional Qualifications" is financed under the Erasmus+ Program

Benefits

show vet

- To make educational programme more attractive
- Improve the work of didactic units
- Improve quality of education
- Raise motivation to learn and work
- Support learners planning their work career by showing them actual working conditions

Erasmus+

Project No. 2020-1-PL01-KA202-082273 "Innovative Multimedia Platform for the Presentation of Professional Qualifications" is financed under the Erasmus+ Program

Problems and solutions

show vet

- working in the international environment
- organizational and legal changes
- project innovation
- small delays, shifts
- long implementation period and changing costs
- other
